

Digital Tools for Teaching Beyond
Boundaries

18.08.2020 – 22.08.2020

Bhopal School of Social Sciences

BATCH II

St. Christopher's College of Education

'Challenging times hold wonderful opportunities for growth', the said statement has been put to reality by many leading educational institutions. They provided wonderful opportunity for their staff to upskill themselves in digital tools to continue education without any interference during pandemic. The five days Faculty Development Program 'Digital Tools for Teaching Beyond Boundaries', was conducted by St. Christopher's College of Education in collaboration with Bhopal School of Social Sciences for their staff. (Batch II)

The event sought a participation of 52 faculty members from different departments of Bhopal School of Social Sciences. The FDP addressed the effective e-Teaching, Learning and Assessment needs of teachers who are teaching subjects of various discipline of Computer Sciences, Humanities, Management and Sciences.

Learning Objectives of the program were

- to enhance and upgrade the skills of teachers in using the latest information and communication technology tools for catering to teaching-learning requirements of student groups of different sizes and subject streams.
- to equip the teachers well in advance to meet the challenges of teaching arising due to interruption in offline teaching caused by the pandemic.
- to provide an interactive and active learning platform to teachers by creating a demanding learning environment, well assisted by skilled resource persons.

Consequent to the underlying objectives, the *expected outcome* of the program was to enable teachers to impart technology assisted high quality education to the students.

Pedagogy included presentation and explanation by the resource person, discussion and online class participation during the session, tasks and assignments for hands on experience of working with online tools.

Coverage of the FDP included the following; Google Classroom, Google Forms, Quizziz, Live Board, Jam Board, Screen castify, Loom, Flip Grid, Google Meet, YouTube and Kahoot for interactive and effective conduction of virtual classes.
