St. Christopher's College of Education

Educational Technology Training Programme

Stage :1 11.10.2017 to 13.10. 2017
Stage :2 13.12.2018 & 14.12.2018

Technology and education are pretty intertwined these days and nearly every teacher educator should have knowledge of educational technology in order to work efficiently. New Educational tools are hitting the market constantly, broadening the scope of their usage in the educational field. Hence, we have complied a training programme which includes popular and widely used technology tools in the field of education.

The Programme was conducted in two Stages. Stage 1: A Training Program on Educational Technology - Stage 2: Incorporation of the technology in the curriculum. The participants were invited from colleges of education

STAGE I: 'A Training Program on Educational Technology'

Conducted from 11.10.2017 to 13.10. 2017

A training program on Educational Technology was conducted for three days for the faculty from education colleges in India. During the Training Programme each day 7 hours were allotted for smart teaching and learning, concept clarification and hands on training on different technology tools like Lesson Planning Tools, Answer Garden and Class Tools.

The participants were exposed to educational technology tools which can be implemented in the class room teaching-learning process.

In the educational technology Training, insights were given on the sub themes like

- Smart Teaching Tools for Teachers,
- Class Tools
- Google Class Room
- Lesson Planning Tools
- Google Docs
- Answer Garden - Google Forms

- Preparation and Training on EdTech Tools

- Teaching Tools - Google Slides

- Micro-teaching using EdTech tools

- Create your own lecture - Video Uploading

These tools enabled the young faculty to educate them on EdTech.

The Experts who have been in the information technology field for nearly a decade were invited as the Resource Persons.

Dr. D. Doreen Robin, Director, Computational Intelligence Research Foundation, Chennai and **Dr. C.R.Rene Robin**, Joint Director & Professor, Jerusalem College of Engineering, Chennai were the resource persons. Invitations were sent to Colleges throughout India. 53 faculty of education from Colleges of Education participated in the training programme.

At the end of the programme from the feedback of the participants it was understood that the participants were digitally updated with the various tools taught by the experts throughout the programme and equipped well enough to develop a smart class room.

STAGE 2: Implementation of technology learnt in Stage 1

Conducted from 13.12.2017 to 14.12. 2017

An in-depth training programme on Educational Technology was conducted for two days for the faculty of our host college.

During the Training Programme the faculty were exposed to Google Classroom technology. Individual google Classrooms were created for each Core Subject and Optional Subjects and the students were invited through Gmail. The students joined the class room using the code generated by the faculty.

Learning Materials in docs, Links and Videos, Assignments submission, MCQ tests were done. The sample test was evaluated and results with remarks were published online through Google Classroom.

Conclusion:

This training programme widened the understanding of teacher educators to use technology effectively in their teaching learning process. The teacher educators updated themselves on technology to meet the current need of the students. This workshop on technology will further help them to develop their technical skills to enrich their teaching learning process.
